

Submitting a SBIR/STTR Phase I Proposal in FastLane

Read this guide to help you submit a Small Business Innovation Research (SBIR) or Small Business Technology Transfer (STTR) Phase I Proposal in FastLane. (A PDF version of this guide is also available for [download](#)).

Please contact the FastLane Help Desk (1-800-673-6188 or fastlane@nsf.gov) for IT system or ADA and 508 compliance-related questions (7:00 AM – 9:00 PM Eastern Time; Monday – Friday except federal holidays). SBIR and STTR program-related questions should be directed to sbir@nsf.gov.

FastLane will not accept proposals after 5:00 PM submitter's time on June 13th. However, a new submission window will open on June 14th. If you are unable to submit by 5:00 p.m. local time on June 13th, please submit as soon as possible once the new window opens.

1. Proposal Overview

Were you invited to submit a proposal?

NSF SBIR/STTR Program Phase I applicants are now **REQUIRED** to submit a three-page "Project Pitch" that outlines the project objectives, technical innovation and associated technical risks. Projects that seem to be a good fit will be officially **INVITED** to submit a full proposal, and all Project Pitch submitters will receive feedback within three weeks.

Only SBIR/STTR proposals that have been invited will be reviewed by NSF. To learn more about the Project Pitch, please visit [How to Apply](#).

Read the SBIR/STTR Solicitation

The Phase I [SBIR](#) and [STTR](#) solicitations explain what information should go in the proposal. The following steps will walk through the process of submitting a proposal to FastLane, one of NSF's electronic proposal submission systems.

SBIR/STTR Proposals must be submitted to NSF via FastLane. The NSF's Research.gov proposal preparation and submission site is not currently available for SBIR and STTR proposal submissions.

2. Registrations

Do you have the required registrations?

Before you can begin entering your full proposal in FastLane, your company must have completed the following registrations:

- [Dun and Bradstreet Data Universal Numbering System \(DUNS\)](#)

All organization information MUST BE IDENTICAL in SAM and in your DUNS Number/Dun & Bradstreet (D&B) record.

Make sure the organization address registered in SAM matches the address listed in your DUNS Number/D&B record. Entering one address for your DUNS Number/D&B record and a different address for your SAM registration can result in significant SAM registration activation delays.

- [System for Award Management \(SAM\)](#)

Please allow sufficient time for a new SAM registration to be processed and active. New SAM registrations can take up to two weeks to become active. Sometimes SAM registrations can take longer if the registration information provided in SAM is incomplete or inaccurate.

NOTE: Once your new SAM registration is active, it takes up to two business days for NSF to receive and process your SAM information. New organizations cannot register with NSF until the organization's active SAM registration information is processed by NSF.

The SAM registration information must be validated with outside parties before the registration can be activated. If the registration fails the Internal Revenue Service Taxpayer Identification Number (TIN) validation or Commercial and Government Entity (CAGE) validation with the Department of Defense's Defense Logistics Agency, the SAM registration could take significantly longer to become active.

When entering the organization's TIN in SAM, ensure that the organization name matches the taxpayer name associated with your TIN. A mismatch of information can result in significant SAM registration activation delays.

For SBIR applicants with subawardees and for all STTR applicants, the subawardee should be registered in SAM. If the sub awardee organization is NOT registered in SAM, the principal investigator (PI) or a representative at the subawardee organization can call the [Research.gov](#) or FastLane Help Desk and NSF will manually register them as an institution in the NSF system to facilitate timely proposal submission.

- [Small Business Administration \(SBA\) Company Registry](#)

You need to register with the SBIR Company Registry (operated by the Small Business Administration). Post-registration, you'll receive a Business Concern Control ID (SBC ID), which you'll need to include in your FastLane application.

- [NSF Research.gov](#)

Organizations new to NSF must register via the account management system in [Research.gov](#).

For additional information and step-by-step instructions, please see the "Register a New Organization" [video tutorial](#) and [Account Management Guide](#) section. If the video tutorial does not open, please try viewing it using another browser.

The [Account Management Guide](#), [Frequently Asked Questions \(FAQs\)](#), and multiple video tutorials are available on the Research.gov [About Account Management](#) page.

NSF recommends that the Principal Investigator (PI) also register as an "Authorized Organizational Representative – AOR" for the organization. The PI creates and uploads all proposal components to FastLane, and the AOR formally submits the proposal to NSF. **Only PIs with AOR privileges can submit the proposal.** The AOR role is NEVER assigned to any person by default.

You can request the AOR role via the "Add a New Role" page in [Research.gov](#). Here's how:

- Sign in to [Research.gov](#) and select the "My Profile" link located at the top right of the screen.
- To add the AOR role, select the "Add Organizational Role" button and choose the AOR role. Complete the role request wizard four-step process. Please see the [Account Management Guide](#) "Add a New Role" section for additional information and step-by-step instructions with associated screenshots.

Register a New Organization

Organizations must be registered with the National Science Foundation (NSF) to submit proposals using NSF's systems. Before a new organization can register with NSF, it must first be registered in the System for Award Management (SAM - <https://www.sam.gov>) and have a DUNS number. Note that completion of the SAM registration process may take up to one month.

Follow the step-by-step process below to register a new organization in Research.gov.

How do I register a new organization with NSF?

- Open [Research.gov](#)
- Click "Sign In" located at the top right of the screen.
- Enter your NSF ID and password and click "Sign In."
- Click "My Profile" located at the top right of the screen.
- Click "Add New Role" from the left navigation bar.
- Click "Add Organizational Role" located in the "Add and Manage Organizations" box.
 - Note: If an organization is new to NSF, you must start the process by setting yourself up as the Administrator for the new organization. You must have an NSF account to start this process. The system will automatically detect that the organization is new and will walk you through setting up the organization and Administrator role.
 - Enter your organization is not already registered with NSF, a message will display to confirm that the organization is not found in NSF systems and you will be able to register the organization and become the first Administrator

The screenshot shows the "Add a New Role" page for NSF ID ooogoo84. It displays four main categories:

- Prepare Proposals and Manage Awards**: For Principal Investigator (PI) / co-Principal Investigator (co-PI), Postdoctoral Fellowship Investigator. Includes "Add Investigator Role" and "Principal Investigator role details".
- Add and Manage Organizations**: For Administrator (Admin), Authorized Organizational Representative (AOR), Sponsored Projects Officer (SPO), View Only User. Includes "Add Organizational Role" and "Organizational role details".
- Manage Financials in Award Cash Management Service (ACM\$)**: For Awardee Preparer, Awardee Certifier, Awardee Financial Representative. Includes "Add Financial Role" and "Financial role details".
- Register as a Graduate Research Fellowship Program (GRFP) Official**: For Coordinating Official (CO), Alternate Coordinating Official (Alt.CO), Financial Official (FO). Includes "Add GRFP Official Role" and "GRFP role details".

The screenshot shows the "Add a New Role to Add and Manage Organizations" step 1: Find Organization. It includes:

- A header with steps: 1. Find Organization, 2. Add information, 3. Choose Role(s), 4. Review, 5. Confirmation.
- A message box: "⚠ Organization Not Registered: This organization is not registered with NSF. You will be required to register as an Administrator on Step 3. If you believe your organization is already registered, please contact your Sponsored Projects Office or equivalent."
- A "Find Organization" section with a search bar for "Enter DUNS number" containing "079724686" and a "Search" button.
- A "Select from your Organization and DUNS number list" dropdown menu with "Select One" selected.
- A table showing organization details:

Select	DUNS Number	Organization	Organization Contact(s)	Registered with NSF
<input checked="" type="radio"/>	079724686	PEREZ, EDUARDO A	EDUARDO A PEREZ	See all (1) No
- Buttons: "Previous" and "Next".

Helpful Tip: If a new organization is registered with NSF without an Administrator, the first user to request a role will become the organization's first Administrator.

- Enter your contact information for the Administrator role, add your organization's information, and then click "Next." (Figure 3)

- Notice the “Administrator” role is pre-selected. Click “Next.” (Figure 4)
- Review your organization’s information for accuracy and click “Submit.” (Figure 5)
- The request to register your organization with NSF will be forwarded via email to your organization’s SAM points of contact for their information only. The SAM points of contact will **not** need to approve the request. (Figure 6)

Visit the [PAPPG Guide](#) for information on how to format your proposal.

Create Proposal

Go to the FastLane home page at <https://www.FastLane.nsf.gov>. Select the **Proposal, Awards & Status** link on the top (blue) menu bar.

The screenshot shows the FastLane homepage with the following elements:

- FastLane logo** and URL www.fastlane.nsf.gov.
- A message: "FastLane is an interactive real-time system used to conduct NSF business over the Internet. FastLane is for official NSF use only. [More About FastLane...](#)"
- Top menu bar:** NSF Home | News | Site Map | FastLane Help | Grants.gov Help | Contact Us
- Right sidebar:** FastLane User Support (7 AM to 9 PM Eastern Time • 19-F), 1-800-673-6188 (FastLane Availability recording), 1-800-437-7408.
- Navigation links:** Proposals, Awards and Status, Proposal Review, Panelist Functions, Research Administration, Financial Functions, Honorary Awards, Graduate Research Fellowship Program, Postdoctoral Fellowships and Other Programs.

On the right side of the page, click "Sign In to FastLane/Research.gov"

You will be taken to Research.gov Sign In page. Fill in Sign In information (NSF ID and Password) in the "NSF User Sign In" box on the left side of the screen.
Note: The Principal Investigator (PI) for the proposed Phase I project MUST login and prepare the proposal

The screenshot shows the "NSF User Sign In" page with the following fields and options:

- NSF ID:** Input field with a "Forgot? / Look Up NSF ID" link.
- Password:** Input field with a "Forgot Password?" link.
- Sign In:** Button.
- New to NSF?** Register link.
- Organization Credentials:** A section with a dropdown menu labeled "Select an Option" and a "Sign In" button.
- Pick Your Organization:** A dropdown menu.
- Don't see your organization listed?** Learn more / Register for InCommon link.
- Sign In for NSF Staff:** Link.

On the Principal Investigator (PI)/Co-Principal Investigator (CO-PI) Management screen, select “Proposal Functions”

The screenshot shows the FastLane interface for PI/Co-PI management. At the top, there's a navigation bar with links for Home, News, Comments, Change Password, and nsf.gov. On the left, there's a "Quick Links" sidebar with several options like Help for Proposal Preparation, Frequently Asked Questions About FastLane Proposal Preparation, Proposal & Award Policies & Procedures Guide, Deadlines and Target Dates, and Convert Files to PDF. The main content area has a large title "Principal Investigator(PI)/Co-Principal Investigator(Co-PI) Management". Below it, a section titled "What Do You Want To Work On?" lists five options: Proposal Functions (which is circled in red), Award And Reporting Functions, Change PI Demographic Information, and Research.gov Functions. At the bottom left, there's contact information for the National Science Foundation, and at the bottom right, a note indicating the last modification date.

On the Principal Investigator (PI) Information screen, check the PI information for accuracy. You may choose to update or edit the PI information by selecting the “Edit PI Information” button. You cannot change the PI here. Once finished, click the “Prepare Proposal” button.

PI information

Once you select to prepare your proposal, the “Proposal Actions” screen appears.

Scroll down past the **Temporary Proposals in Progress** section to the **Create New Proposal** section at the bottom, and click on the “**SBIR Phase I**” or “**STTR Phase I**” button.

The screenshot shows the 'Create New Proposal' page. At the top right, it says 'General-PI - Dickensx'. On the right, there's a 'NAVIGATION' bar with 'PROPOSALS', 'PI INFO', and 'LOGON'. Below the navigation, there are four tabs: 'Create Blank Proposal', 'SBIR Phase I' (highlighted in yellow), 'SBIR Phase II', 'STTR Phase I' (highlighted in yellow), and 'STTR Phase II'. In the center, there's a 'Go Back' button.

Form Preparation

At the top of the **Form Preparation** page will be the text **Forms for Temp Proposal #** - this number will be used as a reference throughout the preparation process. When your FastLane Contact/SPO finally submits your proposal to NSF, your proposal will be assigned an official NSF proposal number, the first two digits of which will match the fiscal year in which the proposal was submitted (e.g. proposals submitted between October 1, 2018 and September 30, 2019 will be numbered 19xxxx). This official proposal number should be used in all further communications with NSF.

Cover Sheet

Applicants must complete all required proposal Cover Sheet data fields in accordance with the proposal preparation instructions.

Proposal Cover Sheets missing required data field information will generate validation errors and cannot be saved or submitted. In addition, you may lose information entered on the Cover Sheet if it cannot be saved or submitted.

Click on the “**GO**” button to the left of “**Cover Sheet**”.

Cover sheet selection

The screenshot shows the 'Form Preparation' page for proposal #7874717. It includes sections for 'Important Proposal Preparation Information', 'Forms for Temp. Proposal #7874717', and 'Form Preparation'. The 'Cover Sheet' section is highlighted with a yellow background. It lists various document types with their status ('Saved' or 'N/A') and 'GO' buttons to access them. A note at the bottom states: 'Please be advised that many Postdoctoral Fellowship programs do not require, and may not allow, submission of a separate mentoring plan if the proposal is submitted to NSF by an individual applicant. Please refer to the specific Fellowship program solicitation to determine whether or not submission of the postdoctoral researcher mentoring plan is required.' There is also a 'Go Back' button at the bottom.

The Cover Sheet has been divided into 4 sections. To complete the Cover Sheet you must complete all 4 sections.

For most proposal sections, there is a specific module in FastLane to which you should upload a PDF file prepared outside the system. Please note that FastLane will need to 'distill' each PDF and you will be prompted to review and approve each file as it is saved. For this reason, you are urged to allow ample time to prepare and submit your proposal. We strongly discourage waiting until the deadline date to submit as common compliance errors and processing delays could cause you to miss the deadline. Proposals cannot be accepted after the deadline per NSF policy.

Click on the "Go" button to the left of "References Cited":

Provide a comprehensive listing of relevant references in this module. You can directly enter the references into the text box or you can transfer a file. It is recommended that you do the file transfer.

All proposals must have something in the References Cited section. If you do not have any references to cite, put a statement to that effect into this module.

IMPORTANT: To avoid budget reductions, NSF strongly advises you to visit the Department of Labor/Bureau of Labor Statistics website to determine the allowed pay scale for each budgeted position. In general, unless your company has other significant internal revenue sources, as well as recent payroll records showing a precedent for the requested salary, the NSF will not allow budgeted salaries in excess of the median salary for the same job title in the same geographical area. Click here to search for your city/state data. If your city is not listed, click here and use your state data. Remember that direct salaries and wages requested in an NSF SBIR/STTR budget are permitted only for work on R&D tasks.

In most cases, every employee listed in line A or B of the budget should fall under one of the following four occupational groups:

- [Management Occupations \(11-0000\)](#)
- [Computer and Mathematical Occupations \(15-0000\)](#)
- [Architecture and Engineering Occupations \(17-0000\)](#)
- [Life, Physical, and Social Science Occupations \(19-0000\)](#)

G.3. Consultant Services

G.4. Computer (ADPE) Services

G.5. Subcontracts - a separate budget is REQUIRED for each subcontractor; the total amount of all these subcontracts should be entered here. (In the small business concern's Budget Justification, please include a few sentences describing the scope and objective of the subaward.)

G.6.Other

First, the applicant may budget up to \$10,000 as a direct charge on line G.6 to this Phase I award for the following specific purposes related to financials and accounting:

- Hiring a certified public accountant (CPA) to prepare audited, compiled, or reviewed financial statements
- Hiring a CPA to perform an initial financial viability assessment based on standard financial ratios so the awardee organization would have time to improve their financial position prior to submitting the Phase II proposal
- Hiring a CPA to review the adequacy of the awardee's project cost accounting system
- Purchasing a project cost accounting system

If the applicant elects to budget funds for one of the above purposes, the budget justification should include a brief description of the desired use of funds, and the use of funds must be approved by the cognizant Program Director, prior to award.

Second, the applicant may budget up to \$20,000 to cover costs related to NSF's "Beat-The-Odds Boot Camp" which is offered to all Phase I awardees.

This program is based on the NSF's Innovation Corps program, and more information can be found [here](#). All Phase I awardees are strongly encouraged to participate in this activity. Costs that are allowable are limited to travel costs related to customer discovery (this could include costs associated with registration/attendance at events for the purpose of customer discovery) and salary/wages for team members who participated in the Boot Camp. All costs related to the Boot Camp must be in line with approved salary rates and other relevant Federal guidelines. International travel cannot be reimbursed, nor can any salary/wages for work done while outside of the United States. NSF recommends that, for the purposes of the proposal budget, applicants that plan to participate in this activity budget \$10,000 and simply list this as "Boot Camp" costs in the budget justification.

C ELECTRONIC SIGNATURES REQUIRED ONLY FOR REVISED BUDGET

Sample Budget Justification:**A.1 Senior Personnel**

Dr. Jane Smith, Chief Technical Officer, will work two person-months on the project (line A.1) at an hourly rate of \$48/hr. 2 months * 173.33hrs/month * \$48/hr = \$16,640.

B. Other Personnel

Three other personnel will work on the project (line B.2).

An electrical engineer, Mr. Michael Jones, will spend four months of effort building the prototype amplifier circuitry, at a rate of \$24/hour. 4 months * 173.33hrs/month * \$24/hr = \$16,640.

Two technicians will spend a total of three months each doing electrical and mechanical characterization, respectively, at a rate of \$18/hour. 6 months * 173.33hrs/month * \$18/hr = \$18,720.

C. Fringe Benefits

Fringe benefits are requested to cover medical, dental, and vision coverage for employees. The fringe benefits rate, based on company records, is 20% of direct labor costs. Therefore, requested fringe benefits are 0.20 * \$52,000 (total direct labor) = \$10,400.

E. Travel

Dr. Smith and Mr. Jones will travel to the Grantees Workshop, at an estimated cost of \$2,000 per person. Total cost for this trip is \$4,000. Dr. Smith will also make one twoday trip to visit collaborators at Brown University. This trip will include round-trip airfare (\$400), two nights at a hotel (\$300), meals (\$80), and a rental car (\$150). Total cost for this trip is \$930. Total budgeted travel is \$4,930.

G.1. Materials and Supplies

The following is a list of materials and supplies to purchase, with quantity, unit cost, and total cost. Items with a total line item cost over \$5,000 have quotes or pricing documentation included as separate pages in this budget justification.

Chemical precursors: \$150/unit,
20 units, \$3,000. Specialized
alloys: \$600/kg, 10 kg, \$6,000.
Temperature sensors: \$250/unit, 8 units, \$2,000.
Total budgeted materials and supplies is \$11,000.

G.3. Consultant Services

Dr. I. D. Snow will be our consultant. She will work for a total of ten days (80 hours/8 hours per day) at the maximum consultant rate of \$600/day. Total requested costs are \$6,000. A copy of the signed commitment letter from Dr. Snow is included with this budget justification.

G.5. Subawards

One subaward has been reached with Brown University. A signed letter of commitment from the subaward lead, Dr. Fred Johnson, is included in the proposal package. A full subaward budget and budget justification is also included with the proposal (see below). The total subaward amount is \$35,000.

G.6 Other

ABC Machining will manufacture two sample holders, requiring an estimated 20 hours of effort. The rate for this service is \$75/hour. Total cost is 20 * \$75 = \$1,500. We will also pay for use of electron microscopes at Purdue University, with a total of 10 hours budgeted. The cost for outside industrial users (see attached price list) is \$200/hour, for a total cost of \$2,000. Total "other" costs are \$3,500.

I. Indirect Costs

The indirect rate for this project is 40% of total salaries and wages, for a total of \$52,000 * 40% = \$20,800.

K. Fee

The fee is calculated as 4.43% of the total direct plus indirect costs (line J), or \$6,370. Taking the maximum allowed fee of 7% would lead to a project budget over the \$150,000 limit for Phase I.

Facilities, Equipment, and Other Resources

13. Click on the "Go" button to the left of "**Facilities, Equipment, and Other Resources**": Upload a document that addresses the requirements from the solicitation.

A Facilities, Equipment and Other Resources document is required for all proposals to NSF. If your proposed project does not require any facilities, equipment or other resources - please include a statement to that effect in this module

Important Proposal Preparation Information

FastLane will check for required sections of the full proposal, in accordance with *Proposal & Award Policies & Procedures Guide (PAPP)* instructions described in Chapter II.C.2. The PAPP requires submission of: Project Summary, Project Description, References Cited, Biographical Sketches, Budget, Budget Justification, Current and Pending Support, Facilities, Equipment & Other Resources, Data Management Plan, and Postdoctoral Mentoring Plan, if applicable. If a required section is missing, **FastLane will not accept the full proposal**.

Note that for conference or international travel grant proposals, or program solicitations, submission instructions may deviate from the PAPPG instructions.

¹Please be advised that many Postdoctoral Fellowship programs do not require, and may not allow, submission of a separate mentoring plan if the proposal is submitted to NSF by an individual applicant. Please refer to the specific Fellowship program solicitation to determine whether or not submission of the postdoctoral researcher mentoring plan is required.

Follow the instructions on the below screen, then click “**Upload File**” to upload the document. This takes a few minutes! You will be required to review and accept the PDF version of the Project Description created by FastLane. Click “**Go Back**” until you return to the “Form Preparation” screen.

Project Description

PIs are cautioned that the Project Description must be self-contained and that URLs must not be used because: 1) the information could circumvent page limitations; 2) the reviewers are under no obligation to view the sites; and 3) the sites could be altered or deleted between the time of submission and the time of review. PIs also are reminded to comply with the instructions contained in the GPG Chapter II.C.2.d(iii) on preparing the "Results from Prior NSF Support" section.

In addition to PDF files, users can now upload a variety of word-processor files and PostScript files. These files will automatically be converted to PDF format.

Biographical Sketches

16. Click on the “**Go**” button to the left of “**Biographical Sketches**”:

Biographical sketches or resumes for all individuals described as senior personnel are required. Senior personnel are individuals with critical expertise who will be working on the project and are employed at the proposing company or at a subaward institution. Bio sketches are not to exceed two pages per person and should address the requirements in the solicitation.

Important Proposal Preparation Information																							
<p>FastLane will check for required sections of the full proposal, in accordance with <i>Proposal & Award Policies & Procedures Guide</i> (PAPPG) instructions described in Chapter II C.2. The PAPPG requires submission of: Project Summary; Project Description; References Cited; Biographical Sketch(es); Budget; Budget Justification; Current and Pending Support; Facilities, Equipment & Other Resources; Data Management Plan; and Postdoctoral Mentoring Plan, if applicable. If a required section is missing, FastLane will not accept the full proposal.</p> <p>Note that for conference or international travel grant proposals, or program solicitations, submission instructions may deviate from the PAPPG instructions.</p>

Current and Pending Support

17. Click on the “Go” button to the left of “**Current & Pending Support**”:

Use the NSF Current & Pending Support form provided by FastLane. A form must be submitted for the PI (and co-PI for STTR) as well as any senior personnel.

NSF considers the Phase I proposal being submitted as “Pending Support”. Therefore, ALL proposals to NSF must have at least one entry in the “Current & Pending Support” form for the PI and senior personnel (this proposal).

Important Proposal Preparation Information			
<p>FastLane will check for required sections of the full proposal, in accordance with <i>Proposal & Award Policies & Procedures Guide</i> (PAPPG) instructions described in Chapter II.C.2. Per the NSF Grant Proposal Guide (GPG) Chapter II.C.2.j, a data management plan of up to two pages is required. Unless otherwise specified in the solicitation, the data management plan may not exceed the two page limitation. Proposals containing data management plans that exceed two pages may be returned without review if this issue is not corrected prior to proposal submission.

While the supplementary document containing the data cannot exceed two pages, proposers who feel that the plan cannot fit within the supplement limit of two pages may use part of the 15-page Project Description for additional data management information.

Project Pitch: 00004073

SBIR/STTR Topic Area: SBIR: Other Topics (OT)

Dear Sally,

Upon reviewing your submitted Project Pitch, I am pleased to inform you that you are invited to submit a full proposal to the NSF SBIR/STTR Phase I program.

You are required to upload this email as confirmation of your invitation to submit a full proposal as an "Additional Single Copy Document" in the full proposal in FastLane. SBIR/STTR proposals cannot be submitted via Research.gov. Please also be sure to select the following topic area from the drop down menu when completing the NSF SBIR Phase I Cover Page for your proposal: SBIR: Other Topics (OT). For a list of sub-topic areas, please review our most recent solicitation topic and subtopic document [here](#).

Please comply with all guidelines and instructions for preparation of your invited full proposal as specified in the NSF SBIR/STTR Phase I program solicitation (see links below), paying close attention to the necessary registrations, required documents and merit review criteria. You will also need to affirm that you meet the eligibility criteria for a small business concern (see section IV. of the solicitation document for details). Proposals that do not comply with the guidelines or do not meet the listed eligibility requirements outlined in the solicitation may be returned without review.

Additional Guidance or Feedback (if applicable):

I highly recommend starting the system for Award Management ([SAM](#)) registration process immediately. The SAM registration process is free, but can take up to a month to complete. More information about SAM can be found at [SAM.gov](#).

You must have the Adobe Acrobat viewer installed on your computer in order to display PDF files. If you do not have the viewer installed, refer to [Using Adobe Acrobat Reader for Printing](#) for information on locating and installing the viewer.

Additional Single Copy Documents

Users are encouraged to upload PDF files (with the exception of the Collaborators and Other Affiliations form) that use the approved fonts in the Proposal & Award Policies & Procedures Guide (PAPPG). This enables the preservation of searchable text, avoiding delays in the processing and review of the proposal.

Follow this link for [New Upload Instructions](#) (Opens new window).

3. Application Overview

Print Proposal

If you have completed all the above actions you are now ready to submit your proposal. If you want to print out your proposal before moving to the submission and printing section below, return to the "Proposal Actions" screen and click on the "Print" button. **This will allow you to have a hard copy of what you have entered into FastLane.** (The printed proposal is not your official proposal). NOTE: Only the organization's AOR (Authorized Organizational Representative) can submit the proposal to NSF. The AOR is also sometimes referred to as the SPO (Sponsored Project Officer) in the NSF systems.

- If you have SPO Access Rights, you can click the "**Submit SBIR**" or "**Submit STTR**" button and the proposal will be submitted to NSF. You will receive a confirmation email with the new NSF Proposal ID.
- If you **do not** see the "Submit SBIR" or "Submit STTR" button on the "Proposal Action" screen, you do not have the FastLane SPO Access Rights. **Follow the instructions outlined below.**

Allow SPO Access

1. To begin the submission process, return to the Proposal Actions screen; select and highlight the proposal you wish to submit and click on the button "**Allow SPO Access**".

Proposal Actions

***Please note:** A Data Management Plan will be required for all proposals submitted or due on or after January 18, 2011. FastLane will be updated to enable its upload as a separate Supplementary Document. Proposals that do not include the requisite plan will be stopped from submission. Specific guidance is included in Chapter II.C.2.j of the revised NSF Proposal & Award Policies & Procedures Guide

FastLane will automate the enforcement of deadline dates. Proposers should allow sufficient time to submit proposals before 5 PM submitter's local time on the deadline date(s) shown below or they risk not being able to submit their proposal to NSF.

2. At this point, FastLane may notify you of some warnings and/or errors related to the proposal. “**Errors**” will prevent you from submitting the proposal until they are remedied. You will receive an “error” if modules or required documents are missing that must be included per NSF policy. Proposers are strongly encouraged to submit their proposal early (days, not hours) to ensure adequate time is afforded to troubleshoot any errors that will prevent submission at this stage. FastLane will not accept any proposals after 5:00 pm submitter’s time. Your organization’s time zone is set in the registration section of Research.gov.
